

FIRST and SECOND ENDING

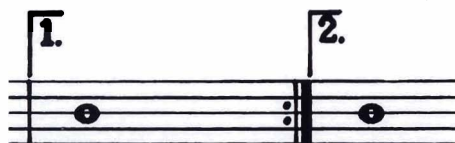

Strategy:

1. At each arrow, draw a 1st and 2nd ending on each of the following lines of music by adding two "brackets" ([]) and the numbers "1" and "2".
2. Look at the example on the left if you need help.
3. Write neatly so a friend could easily tell what to do when playing or singing these endings.

Besides the double bar and repeat sign, there is another symbol. This symbol is the **first** and **second ending**.

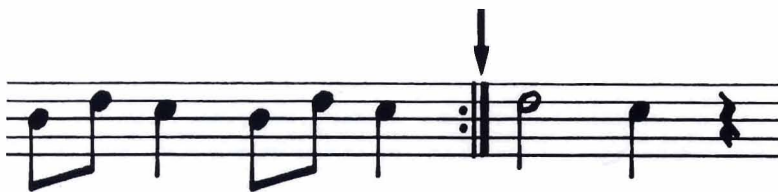

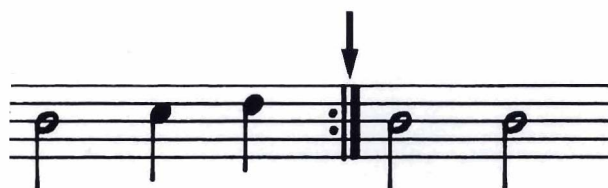

This symbol can come at the end or middle of a song and always comes with a repeat sign.

It looks like this:

This symbol means to repeat the section again after playing the ending with the number "1".

After you play the section again, you skip the ending marked "1", and play the ending marked "2".

CHECK-UP:

1. A 1st and 2nd ending can come at the end or the _____ of a song.
2. This new symbol of two endings always comes with a _____ sign.
3. After you repeat the section on the 2nd time through, you play the _____ ending instead of the _____ ending.
