

MUSIC TERMS/ SYMBOLS

Strategy:

You will need to know a few more music words and symbols during your first year of playing or singing. These new words and symbols should be memorized so you will know what to do when you see them in your music. Music symbols are short-cuts to tell the singer or musician to do something special.

1. Look carefully at the following new music symbols.
2. Read their definition two times.
3. Try to find examples of these symbols in your music.
4. Use this page as a dictionary if you don't remember what these new symbols mean.

MUSIC TERMS/SYMBOLS CHART

	SLUR, play notes without tonguing or changing bow direction		CRESCENDO, gradually get louder
	TIE, play one long note the length of the two notes added together		DECRESCENDO, gradually get softer
