

NOTES PARTS

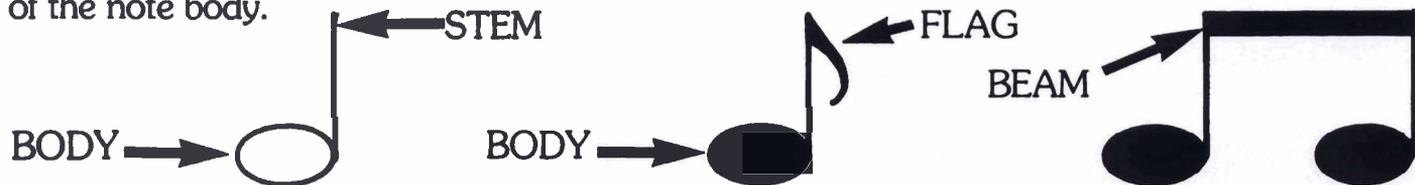

Strategy:

Notes have separate parts which tell us how long or short they are. Each of these parts has a name. It is important to memorize the name of each note part.

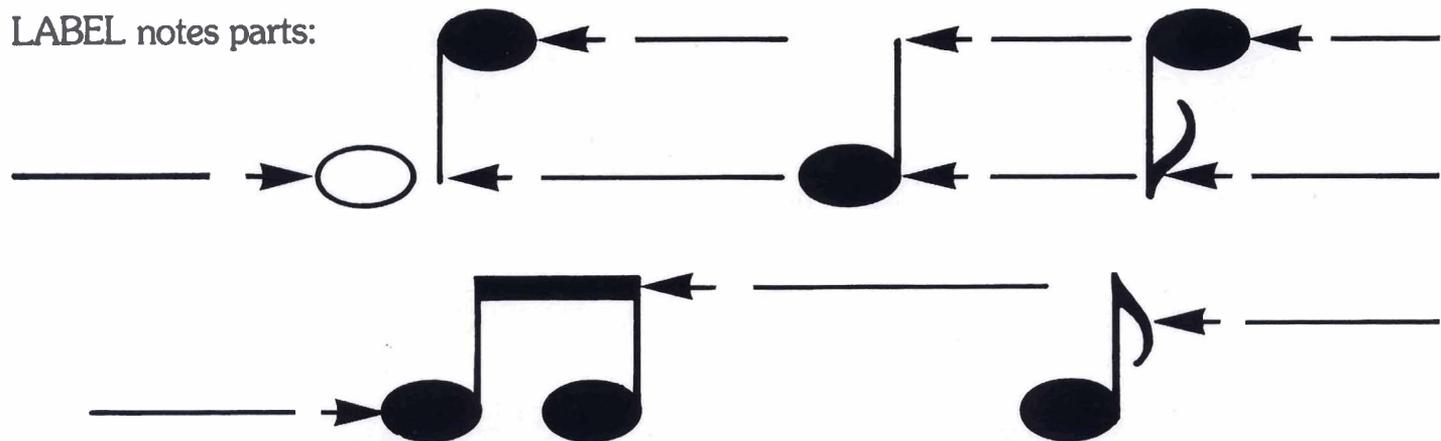

1. Look carefully at the notes drawn below.
2. Notice each part is labeled with a name by the arrow.
3. Try to memorize the name of each part.
4. By the arrows with a blank line, write the correct name for each note part.

Stems on notes *may go either up or down* depending on where the note is placed on the staff.

Stems go **up on the right** of the note body and **down on the left** of the note body.

LABEL notes parts:

CHECK-UP:

1. The separate parts of notes tell us how _____ or short the notes are.
2. The four basic parts of a note are:

3. Stems of notes may be drawn up or down depending on _____
4. Stems facing up are on the right of the note body, while stems facing down are on the _____ of the note body.
