

COUNTING RHYTHM WHOLE, HALF, QUARTER

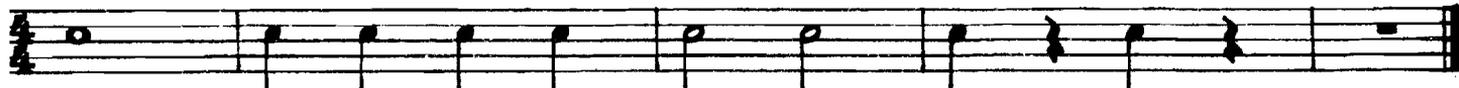

Strategy:

The most important rhythm sign post is the **time signature**.

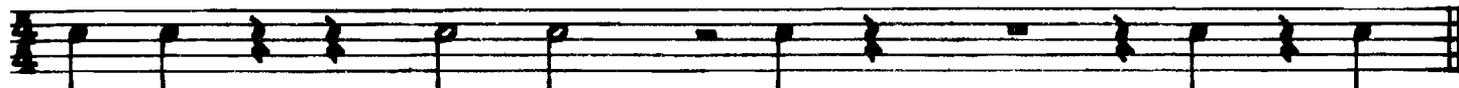

Always look at this music symbol first when you begin to look at a new piece of music.

1. Practice counting rhythm by writing the correct count or beat number under each note and rest below.
2. Be sure to write your numbers **exactly** under each note or rest.
3. Draw bar lines in the correct place where they are missing on line 2 and 3.
4. Be sure to look carefully at the time signature.

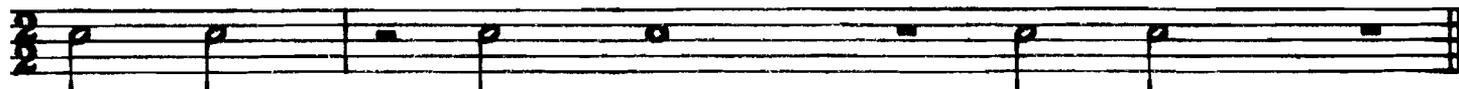

WRITE COUNTS:

WRITE COUNTS AND PLACE BAR LINES:

WRITE COUNTS AND PLACE BAR LINES:

CHECK-UP:

1. Inside the square, draw the note that gets:

two counts in $\frac{4}{4}$ time

one count in $\frac{3}{4}$ time

four counts in $\frac{4}{4}$ time

one count in $\frac{3}{2}$ time

2. Count and tap the above rhythms. Be sure to keep a steady pulse.
