

NOTE DURATION/LENGTH

Notes must be written on the staff in such a way that we can understand how long they are.
 Another word for length is **duration**.
 Notes are drawn differently to show duration or length.

Notes are either:
 "white": not filled in
 "black": filled in

White notes are played or sung longer than black notes.

Strategy:

1. Look carefully at the different note drawings below.
2. Write the names of the 3 basic note types on the blank lines.
3. Copy the drawings of the 3 note types.
4. Draw your notes inside the boxes.
