DOTTED HALF NOTE REVIEW

Remember, dots can be added to notes or rests to make them longer and add duration or length.

The dot adds half the value of the note it is beside.

Example: $\text{♩}(2) + \cdot(1) = 3$

$\text{♩} \cdot = 3$ counts

Strategy:

1. Practice counting dotted half notes by writing the counts under each note and rest.
2. Dotted half notes will be included along with eighth notes so be sure to remember to subdivide the beat for eighth notes.
3. Look back at the last lesson (18) if you need help.
